## ADA'S 4TH BANK ORGANIZED

### Farmers State Bank, Its Name

The News takes pleasure in giving to the public the information that a new institution for Ada and Pontotoc County has completed its organization under the name of the Farmers State Bank of Ada, Oklahoma. Bank Commissioner Smock advised F. O. Harriss by wire yesterday, as follows:

"F. O. Harriss, Ada, Okla.—Certificate authorizing Farmers State Bank to open for business issued today. H. H. Smock, Bank Commissioner. Dated Guthrie, Okla., Feb. 10, 1908."

This new bank has been organized with a paid up capital of \$15,000 under the new laws of this state for the protection of bank depositors, and safety to its depositors will be guaranteed by the Depositor's Guaranty fund of the state of Oklahoma.

The incorporators of the bank are Gov. Wm. L. Byrd, R. E. Haynes, F. O. Harriss, D. W. Huffar, A. M. Croxton, J. C. Chapman and C. W. Stringer and the same constitute the board of directors.

The officers of the bank are: Gov. Wm. L. Byrd, president; R. E. Haynes, vice president, and F. O. Harriss, cashier. These gentlemen are well known in Ada and surrounding country. Gov.

Byrd was for two terms governor of the Chickasaw nation and is a man of broad business and political experience, and is one of the leading capitalists of Pontotoc county. R. E. Haynes, vice president, is a prominent hardware merchant in this city, and is one of Ada's leading business men. F. O. Harriss with whom every one in Ada and Pontotoc county is acquainted, will serve the new institution in the capacity of cashier. Mr. Harriss has been engaged in the banking business seven consecutive years and has proven himself efficient in this profession.

On a whole, the officers in charge are prominent, conservative business men, and will undoubtedly make the new institution, Ada's fourth Bank, a success.

## SPECIAL MESSAGE

SCHOOL LAND LEASES IN OKLAHOMA PRESSED FOR RENEWAL.

### MANY HAVE EXPIRED

Lessee May Have Three Years More and Governor ends Special Message on Matter.

Guthrie, Ok., Feb. 10.—In a special message to the legislature today the governor called attention that recently more than 2,000 leases of Oklahoma public lands had expired and were being pressed for renewal under the terms of the state law, which gives the lessee an option of three years additional. It is explained that the last appraisement made by the Territorial Board for the purpose of valuing for lease "had been conducted without careful consideration, and apparently in a great hurry." In some counties the valuation was reduced 25 per cent, whereas in Caddo and Greer counties it was increased 200 per cent.

The governor recommends an act extending the leases until January, 1909, in all cases where an extension be at a uniform advance of 25 per cent over the last appraisement and the lessee's preference right be not disturbed by such extension. The governor states that delay in giving the proper law will be embarrassing to the lessees and expensive to the state.

In the house today final passage was secured upon the bill by Mr. Ellis and Mr. Durham against legislative lobbying and naming a penalty in cases where persons lobby secretly around and legislative body; and upon the bill by Mr. Rainey providing for the examination of records and books of public service corporations by the corporation commission and for a penalty for officers who refuse to permit them to be examined or who destroy or mutilate any of the records to prevent scrutiny by the state. In the passage of this bill, Mr. Jones of Oklahoma City asked how Oklahoma would be able to get to the offices of a company operating here, but the records of which were in another state, and Mr. McCalla referred him to the Waters Pierce case in Texas, whereby through a process of the court that company's records were taken there from St. Louis.

With the exception of the rates of inspection, the house reported for final passage the bill by Mr. Whitehurst and Mr. Murray providing for the inspection and management of hotels and lodging houses. The bill makes mandatory fire escapes and sanitary conveniences; bed sheet of sufficient length to be folded over the blankets as a precaution against germs; for disinfection of bed clothing used by transient customers, every three months, and that each guest at hotels be supplied with a clean towel and their beds with clean sheets and pillow cases. An amendment by Mr. Faulkner was adopted providing that "neither food nor drink shall be served out of any cup or vessel containing a crack which is visible to the naked eye."

He explained that cracks in tableware were germ-breeders. The bill provides for an inspector of hotels, and deposits the cost of the department to be paid by the hotels, and for the two annual inspections.

An unfavorable committee report upon the bill was made by Mr. Ballard, granting in certain cases the right of suffrage to women.

Among the new measures offered in the house were the following: By Messrs. Holland and Norville, concurrent resolution memorializing congress for the improvement of the Arkansas river; by Mr. Harrison of Hughes, providing that every physician registered under Oklahoma laws be allowed to register as a pharmacist without additional cost; by Mr. Durant, making it unlawful for a person or association to maintain a school where both white and negro pupils receive instruction.

The senate passed finally the bill by Senator Williams regulating optometry, and recommended for passage the bill by Senator Redwine for the protection of miners and fixing the duties of the state mine inspector. The

bill is of about fifty printed pages and names a complete code for the state department of mines and mining. It has the indorsement of the United Mine Workers of Oklahoma, Arkansas and Texas. By the wording of the last section of the bill the federal mining law, adopted by terms of the constitution, was explicitly repealed, but, realizing that such was not a function of the state legislature, it was amended so that the federal law would "no longer be applicable."

New measures in the senate were by Senator Davis, appropriating \$104,310 for the Oklahoma educational institutions, and by Senator Thomas, providing for the appointment of special election commissioners to supervise elections for locations of county seats and providing that when 20 per cent of the voters petition the governor he shall call an election within not less than sixty nor more than seventy days thereof.

Unfavorable committee reports were made in the senate upon the bill by Senator Agee for county auditors, and the concurrent resolution by Senator Taylor memorializing congress not to pass the Farris bill in its present shape, which provides for payment of the townsie money to Caddo and Comanche counties.

Favorable reports were made upon Senator Little's bill requiring one year's residence to procure divorces and house bill by Mr. Murray to carry into effect the initiative and referendum of the constitution.

#### GUARANTY OF DEPOSITS INVOLVED IN LITIGATION

Attorney for Noble County Bank Bring Action to Determine Law's Constitutionality.

Guthrie, Ok., Feb. 10.—A suit to test the legality of the state guaranty deposit banking law, commenced today by R. F. Ellinger, president of the Noble County State Bank of Perry, through attorneys, seeks to enjoin the State Banking Board from levying the assessment of 1 per cent on the average daily deposits in Mr. Ellinger's bank to create the guaranty fund.

Lawyers in the case say the law is unconstitutional, in that it taxes one person for the benefit of another and takes away a man's property without due process in violation of both the state and federal constitutions.

Circulars were mailed to every Oklahoma banker today inviting their cooperation in the suit.

The state banking board has received applications from twenty national banks to take advantage of the state guaranty law.

#### TAKEN TO COURTS.

The State Capital Files Suit Against Haskell, Worrell and Printing Board.

Guthrie, Okla., Feb. 10.—Mandamus and injunction suits were filed today in the Logan county district court by the State Capital Publishing company against Governor C. N. Haskell, State Printer Worrell and the state printery board. The mandamus seeks to compel the printer to submit public printing work to competitive bids and to accept that of the State Capital. The injunction would prevent the governor and the board from carrying out any contracts alleged to have been heretofore let. The petition cites that such contracts have been secured by the Guthrie leader.

#### Judge Dismisses Cases at Ardmore

Ardmore, Ok., Feb. 10.—Judge Stillwell H. Russell of the district court this morning dismissed forty-five cases brought by the United States on behalf of Indians to cancel leases on property for insufficient consideration, on the grounds that the United States was not a party to the action, since the Indians have been declared citizens. The judge refused a motion before making the ruling to transfer the cases to the federal docket.

#### On Graduated Land Tax.

Guthrie, Ok., Feb. 10.—Assistant Attorney General Spillman today gave an opinion to Senator Campbell Russell that a graduated land tax was not repugnant to the constitution of Oklahoma, and in no way conflicted with the fourteenth amendment to the federal constitution which guarantees protection to property and person. Senator Russell will offer a measure providing for a graduated land tax.

## ALDRICH DISCUSSES HIS BILL

LENGTHY ARGUMENT READ FROM CAREFULLY PREPARED MANUSCRIPT TO SENATE.

## J. PIERPONT MORGAN HEARS

Probabilities Are Either Senators Bailey or Senator Rayner Will Make First Speech for Democrats.

Washington, Feb. 10.—The debate on the Aldrich currency bill was opened today by Senator Aldrich. Instead of a speech it was argument read from carefully prepared manuscript and the delivery of it required nearly an hour and a half. Notwithstanding the dryness of the subject and the conversational tone of Senator Aldrich's delivery nearly every member of the senate and almost a crowded gallery heard him.

J. Pierpont Morgan was among his auditors. The New York financier sat in the row of seats of the reserved gallery set aside for the family of the vice president.

It is unnecessary to say that Senator Aldrich made the strongest possible argument for his bill. Master of the subject he was able to handle facts of financial history unknown to most of those who heard him. What is regarded as the most vulnerable part of his argument is that it was based upon the assumption that the regulation of the money supply ought to be left chiefly to the banks. Since Senator Aldrich's bill leaves the issuance of the proposed emergency currency to the pleasure of the banks, his argument was perhaps consistent.

Senator Aldrich has expressed the hope that the debate might be brought to an end within ten days, but it is not regarded as likely that this hope will be gratified.

The democrats are disposed to debate the bill rather freely, believing that it offers good opportunity to make material for the campaign.

It is probable that either Senator Bailey or Senator Rayner will make the first speech on the democratic side but there has been no announcement as to when they will speak.

I wish that I might talk with all sick ones about the actual cause of Stomach, Heart and Kidney ailments. To explain in person how weak stomach nerves leads to Stomach weakness. I am sure would interest all. And it is the same with weak Hearts or weak kidneys. This is why my prescription—Dr. Shoop's Restorative—so promptly reaches ailments of the Stomach, Heart and Kidney. It is wrong to drug the Stomach or stimulate the Heart or Kidneys. These weak inside nerves simply need more strength. My restorative is the only prescription made expressly for these nerves. ### PROCEEDINGS IN THE HOUSE.

Washington, Feb. 10.—A brief but fiery speech by Mr. Leake of New Jersey, in which he outlined his opposition to William J. Bryan as a candidate for the presidency, relieved somewhat the monotony of debate on the Indian appropriation bill in the house of representatives today. Mr. Leake, charged Mr. Bryan with taking the "big stick" from the president leaving the latter only a big slipper and he further credited the democrats in the house with having usurped the right of free action of the delegates to the Denver convention by nominating Mr. Bryan in advance. His remarks were greeted with hisses from the democratic side of the house.

Considerable progress was made with the Indian appropriation bill, which was so amended that the commissioner on Indian Affairs, before he carries out the policy of abandoning non-reservation schools, shall investigate the question fully and report to the house at its next session.

Consideration of the Indian bill was not concluded when the house at 5:01 p. m. adjourned.

## TAXES NOT DELINQUENT.

Attorney General's Department Declares Taxes Shall Not Become Delinquent Until 1st Monday in April, 1908.

The city tax collector did business with the tax payers yesterday. The citizens were informed that taxes would be delinquent after the 10th inst., and that a penalty of 15 per cent would be delinquent on account of non payment; consequently, every one went money hunting. In less than ten hours Monday more than \$10,000 in taxes had been collected.

On January the 11th, Gov. Haskell approved an act being an emergency measure extending time of payment of all taxes due December 15th, 1907, and declaring an emergency. The following is section 1 of this bill:

"Section 1. That the time of payment of all taxes in the state of Oklahoma on the 15th day of December, 1907, is hereby extended to the first day of March, 1908, and the said taxes shall be due and payable on said date. Said taxes shall become delinquent on the first Monday in April following said first day of March, 1908, and no penalty for none payment shall attach after said first Monday in April, 1908."

It is presumed that the city was very much in need of the funds which have been collected this week from the tax payers. Probably grave embarrassment would have resulted to the city should the city administration have advised the tax payers that the tax paying time had been extended two months. There is small question during these piping times but that could the city have spared the money almost under any circumstances, it would have been quite an accommodation to a majority of the tax payers, had they been informed that the law lately passed extended the time when taxes would become delinquent until in April.

The attorney general, West, and assistant Fielding Lewis, declare that the law lately passed covers the state and effects the tax collections in the cities in the old Indian Territory part of the state. The citizens of McAlester, Muskogee and other cities are afforded much relief on account of the two months more of grace and generally express satisfaction at each state of affairs.

## ADA'S 4TH BANK ORGANIZED

### Farmers State Bank, Its Name

The News takes pleasure in giving to the public the information that a new institution for Ada and Pontotoc County has completed its organization under the name of the Farmers State Bank of Ada, Oklahoma. Bank Commissioner Smock advised F. O. Harris by wire yesterday as follows:

"F. O. Harris, Ada, Okla.—Certificate authorizing Farmers State Bank to open for business issued today. H. H. Smock, Bank Commissioner. Dated Guthrie Okla., Feb. 10, 1908."

This new bank has been organized with a paid up capital of \$15,000 under the new laws of this state for the protection of bank depositors, and safety to its depositors will be guaranteed by the Depositor's Guaranty fund of the state of Oklahoma.

The incorporators of the bank are Gov. Wm. L. Byrd, R. E. Haynes, F. O. Harris, D. W. Huffer, A. M. Croxton, J. C. Chapman and C. W. Springer and the same constitute the board of directors.

The officers of the bank are: Gov. Wm. L. Byrd, president, R. E. Haynes vice president and F. O. Harris, cashier. These gentlemen are well known in Ada and surrounding country. Gov.

Byrd was for two terms governor of the Chickasaw nation and is a man of broad business and political experience, and is one of the leading capitalists of Pontotoc county. R. E. Haynes, vice president, is a prominent hardware merchant in this city, and is one of Ada's leading business men. F. O. Harris with whom every one in Ada and Pontotoc county is acquainted, will serve the new institution in the capacity of cashier. Mr. Harris has been engaged in the banking business seven consecutive years and has proven himself efficient in this profession.

On a whole the officers in charge are prominent conservative business men and will undoubtedly make the new institution Ada's fourth Bank, a success.

SCHOOL LAND LEASES IN OKLAHOMA PRESSED FOR RENEWAL.

### MANY HAVE EXPIRED

Lessee May Have Three Years More and Governor ends Special Message on Matter.

Guthrie, Ok., Feb. 10.—In a special message to the legislature today the governor called attention that recently more than 2,000 leases of Oklahoma public lands had expired and were being pressed for renewal under the terms of the state law, which gives the lessee an option of three years additional. It is explained that the last appraisement made by the Territorial Board for the purpose of valuing for lease "had been conducted without careful consideration, and apparently in a great hurry." In some counties the valuation was reduced 25 per cent, whereas in Caddo and Greer counties it was increased 200 per cent.

The governor recommends an act extending the leases until January, 1909, in all cases where an extension be at a uniform advance of 25 per cent over the last appraisement and the lessee's preference right be not disturbed by such extension. The governor states that delay in giving the proper law will be embarrassing to the lessees and expensive to the state.

In the house today final passage was secured upon the bill by Mr. Ellis and Mr. Durham against legislative law-breaking and naming a penalty in cases where persons lobby secretly around and legislative body; and upon the bill by Mr. Rainey providing for the examination of records and books of public service corporations by the corporation commission and for a penalty for officers who refuse to permit them to be examined or who destroy or mutilate any of the records to prevent scrutiny by the state. In the passage of this bill, Mr. Jones of Oklahoma City asked how Oklahoma would be able to get to the offices of a company operating here, but the records of which were in another state, and Mr. McCalla referred him to the Waters Pierce case in Texas, where through a process of the court that company's records were taken there from St. Louis.

With the exception of the rates of inspection, the house reported for final passage the bill by Mr. Whitehurst and Mr. Murray providing for the inspection and management of hotels and lodging houses. The bill makes mandatory fire escapes and sanitary conveniences; bed sheet of sufficient length to be folded over the blankets as a precaution against germs; for disinfection of bed clothing used by transient customers, every three months, and that each guest at hotels be supplied with a clean towel and their beds with clean sheets and pillow cases. An amendment by Mr. Faulkner was adopted providing that "neither food nor drink shall be served out of any cup or vessel containing a crack which is visible to the naked eye."

He explained that cracks in tableware were germ-breeders. The bill provides for an inspector of hotels, and deputizes the cost of the department to be paid by the hotels, and for the two annual inspections.

An unfavorable committee report upon the bill was made by Mr. Ballard, granting in certain cases the right of suffrage to women.

Among the new measures offered in the house were the following: By Messrs. Holland and Norville, concurrent resolution memorializing congress for the improvement of the Arkansas river, by Mr. Harrison of Hughes, providing that every physician registered under Oklahoma laws be allowed to register as a pharmacist without additional cost; by Mr. Durant, making it unlawful for a person or association to maintain a school where both white and negro pupils receive instruction.

The senate passed finally the bill by Senator Williams regulating optometry, and recommended for passage the bill by Senator Redwine for the protection of miners and fixing the duties of the state mine inspector. The

bill is of about fifty printed pages and names a complete code for the state department of mines and mining. It has the indorsement of the United Mine Workers of Oklahoma, Arkansas and Texas. By the wording of the last section, of the bill the federal mining law, adopted by terms of the constitution, was explicitly repealed, but, realizing that such was not a function of the state legislature, it was amended so that the federal law would "no longer be applicable."

New measures in the senate were by Senator Davis, appropriating \$104,310 for the Oklahoma educational institutions, and by Senator Thomas, providing for the appointment of special election commissioners to supervise elections for locations of county seats and providing that when 20 per cent of the voters petition the governor he shall call an election within not less than sixty nor more than seventy days thereafter.

Unfavorable committee reports were made in the senate upon the bill by Senator Agor for county auditors, and the concurrent resolution by Senator Taylor memorializing congress not to pass the Farris bill in its present shape, which provides for payment of the towns site money to Caddo and Comanche counties.

Favorable reports were made upon Senator Little's bill requiring one year's residence to procure divorces and house bill by Mr. Murray to carry into effect the initiative and referendum of the constitution.

### GUARANTY OF DEPOSITS INVOLVED IN LITIGATION

Attorney for Noble County Bank Bring Action to Determine Law's Constitutionality.

Guthrie, Ok., Feb. 10.—A suit to test the legality of the state guaranty deposit banking law, commenced today by R. F. Ellinger, president of the Noble County State Bank of Perry, through attorneys, seeks to enjoin the State Banking Board from levying the assessment of 1 per cent on the average daily deposits in Mr. Ellinger's bank to create the guaranty fund.

Lawyers in the case say the law is unconstitutional, in that it taxes one person for the benefit of another and takes away a man's property with out due process in violation of both the state and federal constitutions.

Circulars were mailed to every Oklahoma banker today inviting their co-operation in the suit.

The state banking board has received applications from twenty national banks to take advantage of the state guaranty law.

### TAKEN TO COURTS.

The State Capital Files Suit Against Haskell, Worrell and Printing Board.

Guthrie, Okla., Feb. 10.—Mandamus and injunction suits were filed today in the Logan county district court by the State Capital Publishing company against Governor C. N. Haskell, State Printer Worrell and the state printery board. The mandamus seeks to compel the printer to submit public printing work to competitive bids and to accept that of the State Capital. The injunction would prevent the governor and the board from carrying out any contracts alleged to have been heretofore let. The petition cites that such contracts have been secured by the Guthrie leader.

Judge Dismisses Cases at Ardmore.  
Ardmore, Ok., Feb. 10.—Judge Stillwell H. Russell of the district court this morning dismissed forty-five cases brought by the United States on behalf of Indians to cancel leases on property for insufficient consideration, on the grounds that the United States was not a party to the action, since the Indians have been declared citizens. The judge refused a motion before making the ruling to transfer the cases to the federal docket.

### On Graduated Land Tax.

Guthrie, Ok., Feb. 10.—Assistant Attorney General Spillman today gave an opinion to Senator Campbell Russell that a graduated land tax was not repugnant to the constitution of Oklahoma, and in no way conflicted with the fourteenth amendment to the federal constitution which guarantees protection to property and person. Senator Russell will offer a measure providing for a graduated land tax.

## ALDRICH DISCUSSES HIS BILL

LENGTHY ARGUMENT READ FROM CAREFULLY PREPARED MANUSCRIPT TO SENATE.

## J. PIERPONT MORGAN HEARS

Probabilities Are Either Senators Bailey or Senator Rayner Will Make First Speech for Democrats.

Washington, Feb. 10.—The debate on the Aldrich currency bill was opened today by Senator Aldrich. Instead of a speech it was argument read from carefully prepared manuscript and the delivery of it required nearly an hour and a half. Notwithstanding the dryness of the subject and the conversational tone of Senator Aldrich's delivery nearly every member of the senate and almost a crowded gallery heard him.

J. Pierpont Morgan was among his auditors. The New York financier sat in the row of seats of the reserved gallery set aside for the family of the vice president.

It is unnecessary to say that Senator Aldrich made the strongest possible argument for his bill. Master of the subject he was able to handle facts of financial history unknown to most of those who heard him. What is regarded as the most vulnerable part of his argument is that it was based upon the assumption that the regulation of the money supply ought to be left chiefly to the banks. Since Senator Aldrich's bill leaves the issuance of the proposed emergency currency to the pleasure of the banks, his argument was perhaps consistent.

Senator Aldrich has expressed the hope that the debate might be brought to an end within ten days, but it is not regarded as likely that this hope will be gratified.

The democrats are disposed to debate the bill rather freely, believing that it offers good opportunity to make material for the campaign.

It is probable that either Senator Bailey or Senator Rayner will make the first speech on the democratic side but there has been no announcement as to when they will speak.

I wish that I might talk with all sick ones about the actual cause of Stomach, Heart and Kidney ailments. To explain in person how weak stomach nerves leads to Stomach weakness. I am sure would interest all. And it is the same with weak Hearts or weak Kidneys. This is why my prescription—Dr. Shoop's Restorative—so promptly reaches ailments of the Stomach, Heart and Kidney. It is wrong to drug the Stomach or stimulate the Heart or Kidneys. These weak inside nerves simply need more strength. My restorative is the only prescription made expressly for these nerves. Next to seeing you personally will be to mail you free, my new book let entitled "What To Do." I will also send samples of my Restorative as well. Write for the book today. It will surely interest you. Address Dr. Shoop, Box S, Racine, Wis. Sold by G. M. Ramsey.

### PROCEEDINGS IN THE HOUSE.

Washington, Feb. 10.—A brief but fiery speech by Mr. Leake of New Jersey, in which he outlined his opposition to William J. Bryan as a candidate for the presidency, relieved somewhat the monotony of debate on the Indian appropriation bill in the house of representatives today. Mr. Leake, charged Mr. Bryan with taking the "big stick" from the president leaving the latter only a big slipper and he further credited the democrats in the house with having usurped the right of free action of the delegates to the Denver convention by nominating Mr. Bryan in advance. His remarks were greeted with hisses from the democratic side of the house.

Considerable progress was made with the Indian appropriation bill, which was so amended that the commissioner on Indian Affairs, before he carries out the policy of abandoning non-reservation schools, shall investigate the question fully and report to the house at its next session.

Consideration of the Indian bill was not concluded when the house at 5:01 p. m. adjourned.

Grippe is sweeping the country. Stop it with Preventics, before it gets deeply seated. To check early colds with these Little Candy Cold Cure Tablets is surely sensible and safe. Preventics contain no Quinine, no laxative, nothing harsh or sickening. Pneumonia would never appear if early colds were promptly broken. Also good for feverish children. Large box, 48 tablets, 25 cents. Vest pocket boxes, 5 cents. Sold by G. M. Ramsey.

**Bank Liquidates and Quits.**  
Guthrie, Ok., Feb. 10.—Herbert H. Smock, state bank commissioner, has been notified of the liquidation of the Day county bank of Grand and of all its business being transferred to

will stand for renomination by the democrats and for re-election as members of the state supreme bench at the coming November election.

### DILLON LESTER APPOINTED.

President of the McAlister Typographical Union Appointed Assistant State Printer at Salary of \$1500 a Year.

Dillon Lester of McAlister has been appointed assistant state printer by State Printer, Judge Worrell, and Gov. Haskell, acting for the state printing board of which they are members. This appointment is a fitting recognition of the state Typographical Union. Than Mr. Lester the union could not have recommended a man more creditably reflecting on its great organization nor the state printing board appointed a citizen more desirous and qualified to render good service.

It is the News editor's pleasure to acknowledge friendly acquaintance with Mr. Dillon Lester and also with his brother, Pres. Lester, the most accomplished politician of the Choctaw nation since the unconquerable

## Stop That Cold

To check early colds or Grippe with "Preventics" means sure defeat for Pneumonia. To stop a cold with Preventics is like checking a fire before it has time to catch. To be sure, Preventics will cure even a deeply seated cold, but taken early—at the stage when they break, or head of those early colds. That's surely better. That's why they are called Preventics.

Preventics are Little Candy Cold Cures. No Quinine, no harsh, nothing sickening. The best children—and thoroughly safe too. If you feel chilly, if you sneeze, if you ache all over, think of Preventics. Preventics may also save your nasal passages. And don't forget your child. There is a Preventic for that, too. It is 25 cents a box for the pocket, also in 50 cents a box. Look on your drugstore giving you

TAXES NOT DELINQUENT.  
Attorney General's Department Declares Taxes Shall Not Become Delinquent Until 1st Monday in April, 1908.

The city tax collector did business with the tax payers yesterday. The citizens were informed that taxes would be delinquent after the 10th inst., and that a penalty of 15 per cent would be delinquent on account of non payment; consequently, every one went money hunting. In less than ten hours Monday more than \$10,000 in taxes had been collected.

On January the 11th, Gov. Haskell approved an act being an emergency measure extending time of payment of all taxes due December 15th, 1907, and declaring an emergency. The following is section 1 of this bill:

"Section 1. That the time of payment of all taxes in the state of Oklahoma on the 15th day of December, 1907, is hereby extended to the first day of March, 1908, and the said taxes shall be due and payable on said date. Said taxes shall become delinquent on the first Monday in April following said first day of March, 1908, and no penalty for non payment shall attach after said first Monday in April, 1908."

It is presumed that the city was very much in need of the funds which have been collected this week from the tax payers. Probably grave embarrassment would have resulted to the city should the city administration have advised the tax payers that the tax paying time had been extended two months. There is small question during these piping times but that could the city have spared the money almost under any circumstances, it would have been quite an accommodation to a majority of the tax payers, had they been informed that the law lately passed extended the time when taxes would become delinquent until in April.

The attorney general, West, and assistant Fielding Lewis, declare that the law lately passed covers the state and effects the tax collections in the cities in the old Indian Territory part of the state. The citizens of McAlester, Muskogee and other cities are afforded much relief on account of the two months more of grace and generally express satisfaction at each state of affairs.

Prescriptions and everything else delivered to the four corners of the city. F. Z. HOLLEY dtf

**TAXES NOT DELINQUENT.**  
Attorney General's Department Declares Taxes Shall Not Become Delinquent Until 1st Monday in April, 1908.

The city tax collector did business with the tax payers yesterday. The citizens were informed that taxes would be delinquent after the 10th inst., and that a penalty of 15 per cent would be delinquent on account of non payment; consequently, every one went money hunting. In less than ten hours Monday more than \$10,000 in taxes had been collected.

On January the 11th, Gov. Haskell approved an act being an emergency measure extending time of payment of all taxes due December 15th, 1907, and declaring an emergency. The following is section 1 of this bill:

"Section 1. That the time of payment of all taxes in the state of Oklahoma on the 15th day of December, 1907, is hereby extended to the first day of March, 1908, and the said taxes shall be due and payable on said date. Said taxes shall become delinquent on the first Monday in April following said first day of March, 1908, and no penalty for non payment shall attach after said first Monday in April, 1908."

It is presumed that the city was very much in need of the funds which have been collected this week from the tax payers. Probably grave embarrassment would have resulted to the city should the city administration have advised the tax payers that the tax paying time had been extended two months. There is small question during these piling times but that could the city have spared the money almost under any circumstances, it would have been quite an accommodation to a majority of the tax payers, had they been informed that the law lately passed extended the time when taxes would become delinquent until in April.

The attorney general, West, and assistant Fielding Lewis, declare that the law lately passed covers the state and effects the tax collections in the cities in the old Indian Territory part of the state. The citizens of McAlester, Muskogee and other cities are afforded much relief on account of the two months more of grace and generally express satisfaction at each state of affairs.

Prescriptions and everything else delivered to the four corners of the city. F. Z. HOLLEY dtf

**Construction of Cement Houses.**

Mr. Edison promises an ornate concrete house, 30x40 feet and three stories high in the near future for a thousand and fifty dollars. The house is such as commonly sells in the cities for from four to eight thousand dollars according to the location and value of the land. The thousand dollars of course, does not include the cost of the land. According to Mr. Edison the house can be built in 12 hours after the molds are set up and it will take only 12 hours or so to put the molds in position. After six days the concrete will have set so that the molds can be removed, and in six days more Mr. Edison says that the walls will be so dry that the house 'will probably be ready for occupancy.' If he can make good these promises remarks the Youth's Companion, a new record in house building will be established. After all this is not the kind of house for a poor man to build in the country for the molds will cost \$25,000 and the machinery for pumping the cement into them will cost \$15,000 more making an investment of \$40,000. But where houses are to be built in long rows as in the large cities a company with sufficient capital might not only make money for itself but provide fireproof houses for those of moderate means at about half the cost of those now built of brick.

An English writer in discussing the smoke nuisance declares that the labor it entails through the spread of dust and soot the darkening of the sky and the injury of fabrics, furniture and other property are not the chief evils. A smoky atmosphere he says has a deleterious effect on the human organism and shows its influence in nervous debility and a stunted life vitally mentally and morally. It is most especially productive of diseases of the bronchial tubes. It is not necessary to wait for patent smoke consumers he says since almost complete combustion can be obtained by proper stoking. These statements are not new but cannot be too often repeated. Since so many authorities agree that smoke is injurious to health it would seem that the enforcement of the smoke ordinance right fully belongs to the department of public health. This same British writer estimates that in London 42 per cent of the fuel used is wasted by careless firing. If owners of chimneys could once be convinced of the extent of this wastefulness reform would be more rapid as a matter of economy.

Col. Goethals head of the Panama canal commission has recommended and President Roosevelt has approved an important change of plan which will mean much in the way of economy and improved efficiency. The alteration will consist of constructing the dams and locks on the Pacific side four miles further inland than was in contemplation. The advantages claimed as certain to accrue from this change are numerous. Among them may be mentioned the fact that the work can be done at an estimated saving of \$10,000,000. It is also asserted that much better foundations can be found at the new site where there will be no difficulty in getting down to bed rock that the change permits better defense and that the work can be done more expeditiously than if the old plan had been carried out. The change is one which the president reserved the right to make and as it appears to be unquestionably in the public interest and in the direction of better more rapid and more economical work on the canal there is no doubt it will have popular approval.

New York city is afflicted with a plague of tramps the hoboos having drifted in to such an extent that the accommodations afforded by the municipal free hotels have been taxed beyond their capacity. The winter usually sees an influx of the kind and this year it is exceptionally large, mainly, it is intimated, because New York is recognized by the tramp fraternity as easy. A plan to have the vagrants kept at work breaking stone or in other ways is under discussion. It is strange that something of the sort has not been proposed before. There is nothing that will impel a tramp to move on more expeditiously than knowledge that a town will not permit him to subsist at its expense in lazy idleness.

A southern judge goes on record as saying that the negro is a savage. In view of the custom of southern white men of hanging negroes first and in vestigating their guilt or innocence later the black man might return the compliment.

**NEGRO CLERK NOT WELCOME.**

Trouble is Brewing in the Indian Agency in Oklahoma.

Muskogee, Okla.—There is trouble brewing in the Indian agency at Muskogee all because the civil service commission has sent W. D. Nicholson of Birmingham, Ala., a negro, here to take a place as stenographer. Nicholson is the first regular appointment to the agency that has been made since the office was put under civil service.

Nearly all the clerks working in the government offices here are southern and a buzz of excitement passed through all the divisions when he appeared. It is apparent that if the negro is put to work in any division the rest of the employees in that division will refuse to work. Indian Agent Kelsey is completely puzzled. He knows that the negro will cause other employees to quit no matter where he is put to work, and is fearful of the consequences. In the meantime the negro is cooling his heels in the hall waiting to be assigned to a position. He is an expert stenographer and brought with him one of the best typewriters in the union agency. Prior to this appointment Nicholson was secretary to the president of a negro college in the south.

Miss Alice Robertson postmistress at Muskogee has faced the same trouble. There are 20 postoffice clerks and they hold their jobs through the civil service. They have served notice on the postmistress that if she dares to allow a negro clerk even though a civil service appointee to go to work in the office the white employees will walk out.

**SUGAR EXPORTS FALL OFF**

But the Philippine General Trade Shows Increase

Washington.—The annual report of the bureau of insular affairs says that the value of exports was in excess of any previous year of American occupation amounting to \$3,713,357 or \$1,796,223 above the figures for 1906. Tobacco and hemp showed the largest increases.

The sugar industry suffered from a somewhat reduced quantity and a decline in price. Sugar exports amounted to 335 tons valued at \$3,924,410 and found an almost exclusively Oriental market with shipments to the United States amounting to but \$234,071.

Imports from the United States amounted to over \$5,000,000 an increase of more than \$750,000. Practically all the increase was on cotton cloth. The tariff amendment of February 26, 1906 collected the former discrimination against American piece goods.

The postal savings bank meets a much needed requirement in the islands and is one of the most important pieces of legislation enacted by the commission.

The total expenses of the bank from its inauguration to June 30, 1907, were \$7,393,353 pesos. If from this amount there be deducted the sums of \$4,495,383 pesos representing interest earned on the investment of the bank's funds, there will be left the sum of \$2,897,970 pesos deficit more nominal than real.

**PARSON'S PET SERMON STOLEN**

Pastor Must Scourge Money Changers at Some Later Date

Pittsburg, Pa.—Rev. Dr. W. T. Reid pastor of the First United Presbyterian church on Fifth avenue the largest church of that denomination in the city is as angry as his calling will permit.

For two weeks he has been at work on a sermon on the topic Christ Cleanses the Temple expecting to deliver it and later to have it printed in the United Presbyterian. He has been much worked up over the financial flurry and decided to make it the topic of his sermon. Despite the fact that his congregation includes many wealthy persons he handled the money lenders severely.

Dr. Reid had the manuscript in the desk of his study and intended to commit it to memory. Some time during the night robbers got into the church through one of the memorial windows. After robbing the collection boxes they went to the pastor's study and looted his desk. A number of papers were taken among them the sermon. Dr. Reid had to depend on a sermon that has done duty before.

I've only one consolation he sighed, maybe the miscreants will read the sermon and it may reform them. Who can tell?

Rev. Dr. Wallace new pastor of the East End Baptist church brought a new one to Cleveland with him.

According to the story a Boston girl got on the street car one day carrying one of those muffs the size of an ordinary hassock. She had only one hand in the muff. A young man sitting next to her took advantage of the opportunity to slip his hand into the unoccupied end of the muff.

The Boston girl turned upon him severely. "I could have you arrested for such a familiarity," said she. "But," she added, "I'm from Boston and I purpose to keep calm. Now I'll just give you ten minutes to let go of my hand.—Cleveland Plain Dealer.

**AGREEING WITH THE ASSESSOR.**

His Reason for Building Unneeded Addition to House.

Representative Birdsall of Iowa objects to the high rentals charged in Washington during the congressional season. He says he feels like an Irish farmer he knew out in his district. The farmer had bought a place out of savings as a farm hand and renter. The tax assessor came around one day and put a valuation on Pat's new property which Pat thought excessive. His protest, however, was unavailing.

One day a neighbor visited Pat and found him building an addition to his house and obviously the house was plenty big enough without it.

"Isn't that a piece of extravagance?" he asked Pat.  
"Think again it might be," said Pat, "but I'm after havin' the ould place warth phat the assiser says it is."

Body Raw with Eczema—Discharged from Hospitals as Hopeless—Cuticura Remedies Cured Him.

From the age of three months until fifteen years old my son Owen's life was made intolerable by eczema in its worst form. In spite of treatments the disease gradually spread until nearly every part of his body was quite raw. He used to tear himself dreadfully in his sleep and the agony he went through is quite beyond words. The regimental doctor pronounced the case hopeless. We had him in hospitals four times and he was pronounced one of the worst cases ever admitted. From each he was discharged as incurable. We kept trying remedy after remedy but had gotten almost past hoping for a cure. Six months ago we purchased a set of Cuticura Remedies. The result was truly marvelous and to day he is perfectly cured. Mrs. Lily Hodge Cambewell Green England Jan. 12, 1907.

**Rooster Makes Man Flee.**  
York, Pa.—Attempting to take a hen from his poultry yard at Red Lion, Edward Wagman was attacked by a highly prized Indian Cornish game cock, which badly gashed his hand. As he dropped the hen to meet the cock's furious charge one of its spurs struck him, ripping a deep wound and severing an artery. The hen was the chief favorite of the lord of the yard.

THIRTY YEARS OF IT.

A Fearfully Long Siege of Daily Pain and Misery.

Charles Von Soehnen of 210 A St. Colfax, Wash., says: "For at least thirty years I suffered with kidney troubles, and the attacks laid me up for days at a time with pain in the back and rheumatism. When I was up and around sharp twinges caught me, and for fifteen years the frequent passages of kidney secretions annoyed me. But Doan's Kidney Pills have given me almost entire freedom from this trouble and I cannot speak too highly in their praise."

AFTER THE QUARREL.

She—I wouldn't cry for the best man living so there!  
He—You don't have to cry for him, dear, you've got him.

**She Was in No Hurry**  
Rev Dr Wallace new pastor of the East End Baptist church brought a new one to Cleveland with him.

According to the story a Boston girl got on the street car one day carrying one of those muffs the size of an ordinary hassock. She had only one hand in the muff. A young man sitting next to her took advantage of the opportunity to slip his hand into the unoccupied end of the muff.

The Boston girl turned upon him severely. I could have you arrested for such a familiarity said she. "But," she added, "I'm from Boston and I purpose to keep calm. Now I'll just give you ten minutes to let go of my hand."—Cleveland Plain Dealer

AGREEING WITH THE ASSESSOR.

His Reason for Building Unneeded Addition to House.

Representative Birdsall of Iowa objects to the high rentals charged in Washington during the congressional session. He says he feels like an Irish farmer he knew out in his district. The farmer had bought a place out of savings as a farm hand and renter. The tax assessor came around one day and put a valuation on Pat's new property which Pat thought excessive. His protest, however, was unavailing.

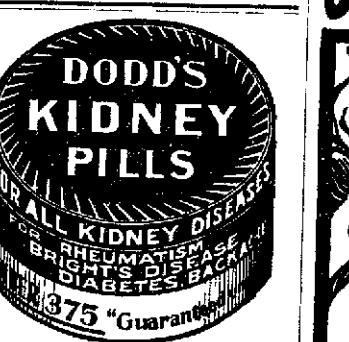

One day a neighbor visited Pat and found him building an addition to his house and obviously the house was plenty big enough without it. "Isn't that a piece of extravagance?" he asked Pat. "Think again it might be," said Pat, "but I'm after havin' the ould place warth what the assessor says it is."

IT SEEMED INCURABLE

Body Raw with Eczema—Discharged from Hospitals as Hopeless—Cure Remedies Cured Him

From the age of three months until fifteen years old my son Owen's life was made intolerable by eczema in its worst form. In spite of treatments the disease gradually spread until nearly every part of his body was quite raw. He used to tear himself dreadfully in his sleep and the agony he went through is quite beyond words. The regimental doctor pronounced the case hopeless. We had him in hospitals four times and he was pronounced one of the worst cases ever admitted. From each he was discharged as incurable. We kept trying remedy after remedy but had gotten almost past hoping for a cure. Six months ago we purchased a set of Cuticura Remedies. The result was truly marvelous and to day he is perfectly cured. Mrs. Lily Hedge Cambewell Green England Jan 12 1907.
